

You are warmly welcomed to evening prayer and benediction on Sunday 12th March at 4pm at St John's church Aurs Road Barrhead G78 2RW

There is a particular welcome for those affected by dementia. We know that many families struggle following a diagnosis and we understand that sometimes people avoid being in public places if the person they care for needs to walk or can be vocal as part of their dementia.

Many years ago, families went to church together every week and music was a big part of their faith. This service includes traditional hymns, burning incense and these combined with a prayerful atmosphere will, we hope help to evoke memories.

Please bring your children, grandchildren, family and friends as we hope to continue to be dementia friendly by organising events using church and community halls throughout Glasgow. Many older people are lonely and isolated and we will work together to help connect people to their communities, inviting them to share their gifts and skills rather than focus on what they may no longer be able to do. It's a simple concept with powerful outcomes.

We look forward to seeing you there and there will be support on hand should you need this. For further information please contact Caroline Brown on 077 366 72003
