<u>Sending an email</u> <u>using gmail on a</u> <u>Samsung tablet</u>

How are you?

Compose email

A new window will open with compose at the top. Your email address will already be completed in the From box. In the To box start to type the email address of the person you want to email. If you have sent or received an email from them their email address should appear in the list. tap the one you want to email

Where it says subject, tap

6

and then type what your email is about.

Tap where it says 'compose email'. This is where you write what you want to say in your email.

If you would like to attach a photo, video or file to your email tap on the paper clip symbol on the top right.

8

<u>Sending an email</u> <u>using gmail on a</u> <u>Samsung tablet</u>

You will then get an option to attach file or insert from drive. Tap attach file

9

A new window will open up with options as to where what you want to attach could be saved. If it is a file it could be in documents or if it is a photo you want to attach

either tap gallery or images

Tap on the file/image you want to attach. You will then be taken back to your email with your file/photo attached to the email.

When you have finished writing you email tap on the arrow in the top right corner to send it.
